### SUMMARY

Highly motivated software engineer with 2+ years of experience in full-stack development and a solid foundation in JavaScript, React, C#, Java, and database management. Leveraging my marketing and HR experience, I effectively collaborate with cross-functional teams to deliver high-quality, scalable solutions.

### TECHNICAL SKILLS

**Languages** | JavaScript, TypeScript, C#, JAVA

**Front-End** | HTML5, CSS, React, Angular, Bootstrap

**Back-End** | .NET, Express.js, Node.js, MongoDB, SQL, REST API

**Security** | CSRF, XSS, JWT

### EXPERIENCE

#### C# Developer, Microsoft & Code Academy Bootcamp, 07/2023 - 11/2023

- Implemented console applications for student grade calculation, showcasing data formatting skills.
- Executed a console-based mini-game, highlighting creativity and practical application of concepts.
- Developed a comprehensive Animal Shelter Application project, showcasing expertise in testing, debugging, and exception handling for effective error management.

#### Full-Stack Web Developer Bootcamp, 12/2022 - 06/2023

- Successfully implemented projects following the Model-View-Controller (MVC) pattern.
- Proficiently built Microsoft SQL architecture, executing SQL requests for seamless data integration.
- Created a dynamic server using Node.js and Express.js, enhancing data management efficiency.
- Designed and implemented a feature-rich Tic-Tac-Toe Game from scratch.
- Developed a fully functional Online Shop Website with secure authentication and authorization processes.
- Implemented security-enhancing features, including CSRF tokens, to mitigate potential threats.

#### Software Engineer Bootcamp, Per Scholas, 07/2022 – 11/2022

- Developed a mini-game “matching pair”, demonstrating proficiency in Vanilla JavaScript, HTML, and CSS.
- Implemented interactive features, demonstrating an understanding of user engagement and experience.
- Executed the implementation of robust user authentication and authorization mechanisms using bcrypt hashing salt and MongoDB.
- Ensured secure access control and data protection, contributing to the overall integrity of the applications.
- Successfully completed CRUD (Create, Read, Update, Delete) operations using the MERN stack (MongoDB, Express, React, Node).
- Architected a fully functional demo website, WebFood, showcasing proficiency in frontend (HTML, CSS, React) and backend (Node.js, Express.js, MongoDB) development.

### PROJECTS

- Online Shop Website: Full-stack e-commerce platform with secure user authentication and custom validations (React, Node.js, MongoDB).
- Tic-Tac-Toe Game: Front-end game showcasing DOM manipulation and interactive UI elements.
- Animal Shelter App: C# project focusing on testing, debugging, and exception handling.
- Online Community Library: currently working on a Java-based platform.

### Other Experience

HR-Representative, Amcord Care Inc. 11/2019 - 06/2020, Philadelphia, PA, US

Marketing Projects Manager, DETSKIY MIR(Chain Stores, B2C), 09/2013 - 01/2016, Moscow, Russia

Marketing Specialist, NORBIT (IT Consulting, B2B), 11/2011 - 09/2013, Moscow, Russia

### Education

Bachelor's Degree, Public Relationships, University of Ecology and Political Science, Moscow, Russia (2008-2013)
